वेबसाइट:-www.ncvbdc.mohfw.gov.in

Dated: - 27<sup>th</sup> March 2026

To,

The State Programme Officer (Kala-azar)  
of all four endemic States  
(ie. Bihar, Jharkhand, West Bengal & Uttar Pradesh).

**Subject:** Decentralization of procurement of Synthetic Pyrethroid (wdp) for Indoor Residual Spraying under Kala-azar Elimination Programme (NVBDCP) reg.

Sir/Madam,

Since 2015, Synthetic Pyrethroid (Wettable Powder) (SP-wdp) has been used for Indoor Residual Spraying (IRS) in Kala-azar endemic areas, replacing DDT due to documented insecticide resistance. Under the Kala-azar Programme, SP (wdp) has been a centrally procured item through Central Medical Services Society (CMSS), with the last supply made to the four endemic states in 2024.

As procurement of SP (wdp) for Malaria has already been decentralized since 2015, with States independently procuring the insecticide as per their approved RoPs, similarly, to ensure timely availability of insecticide for Kala-azar IRS operations without interruption, States are hereby advised to undertake **decentralized procurement of Synthetic Pyrethroid (WDP) for Kala-azar** as per their requirement, following due procurement procedures and quality assurance norms from FY- 2026-27.

As already informed by email dated 06.03.2026, necessary provisions may be incorporated in the respective PIPs under NHM for approval and fund allocations. States are requested to ensure timely procurement and adequate buffer stock to facilitate uninterrupted IRS rounds in endemic areas and to sustain Kala-azar elimination gains following the relevant guidelines of procurement issued by the respective authorities.

Technical Specification (approved in 2024 & reviewed in 2025 with no change) is enclosed and available on the NCVBDC website, URL <https://ncvbdc.mohfw.gov.in/index1.php?lang=1&level=1&sublinkid=5909&lid=3995>. Item is listed on Government e Market portal. Last purchase price of Synthetic Pyrethroid (wdp) (finalized through Central procurement agency – CMSS in Sept. 2024) for Alphacypermethrin 5% wp is Rs. 2,20,660/- per Metric Ton.

This issues with the approval of competent authority.

Yours faithfully,

(Dr. Chhavi Pant Joshi)  
Joint Director, NCVBDC
